COB/FOB LED STRIP LIGHT

The image shows three parallel LED strips, likely COB or FOB type, which are illuminated from within, casting a warm yellow glow. The strips are thin and flexible. On the surface of the strips, there are printed labels: 'GND' and '+DC24V'. The strips are arranged in a slightly overlapping manner, with the top strip being the most prominent. The background is dark, making the glowing strips stand out. The lighting is soft and focused on the strips, highlighting their texture and the way they bend slightly.

EASI offers new trend COB/FOB Led strip, a technology revolution and redefinition of led strip industry. With chip direct on FPC, without traditional led bracket and golden wire, COB strip is with better bending performance and more efficient heat transfer. Invisible resistors make a clear appearance and good consistency.

It is a designed to offer customers the best ultra-high density and dot-free lighting with unique appearance, 180° view angle and high color efficiency. Slim size, mini size and short-cut strips are suitable for kinds of application with various IP grade.

Additional Information:

- The LED strip bending radius is 10mm. Please do not fold with sharp angle or twist the LED strip.
- It will be likely to destroy the LED strip if exceed the maximum rated operating voltage.
- Please do not connect the LED strip beyond the maximum connecting length.
- LED strips are equipped with a self-adhesive tape for attaching the LED strip to suitable materials, such as aluminum profiles, which must be clean and free of oil or silicone coatings, as well as other dirt/dust particles. The adhesive tape is intended for single use and if removed may damage the material to which it is stuck and the LED module itself, which must then be scrapped.

A modern interior space featuring geometric shapes and LED neon lighting. The scene is dominated by a large, dark, angular structure that appears to be a piece of furniture or a wall installation. The structure is illuminated from within, creating a strong contrast between the dark surfaces and the bright light. The lighting is primarily yellow and blue, with the yellow light being more prominent in the foreground and the blue light being more prominent in the background. The overall atmosphere is futuristic and minimalist.
